

ADVANTAGES OF THE PROGRAM

- ◆ To assure the systematic and timely sharing of accurate intelligence and information across the wide spectrum of the fire service in Illinois
- ◆ Improves firefighter safety
- ◆ Warns of identified tactics and trends ahead of time
- ◆ Shares close calls / lessons learned
- ◆ Assists with planning and preparedness
- ◆ Can help identify & prevent certain events
- ◆ Enhances mitigation and recovery of major events
- ◆ Will reduce rumor and misinformation

Fire Service Information Sharing and Analysis Program

The FSISA program was created to support the fire service and its affiliated representatives in the information sharing environment. Specifically, the FSISA program objectives include:

1. Provide situational awareness and advanced planning preparedness to Information Receivers (IR) to increase responder safety.
2. Have two FILO's for each division to serve as the division contact and to assist in training IR's.
3. IRs to share un-vetted Disaster Intelligence with collaborative partners in order to improve the common operating picture.
4. Share information from all sources as appropriate with public safety, Non-Governmental Organizations (NGO) and private sector partners.

What Is It and What Can It Do For Me.

Information Sharing Flow - In

Information Sharing Flow - Out

Why Is Information Important To Me?

Advanced Planning Preparedness-

Serves as the preparedness “need to know” in order to plan for specific known situations and/or possible/potential/probable events where members may be exposed to risk. This information may be of particular value addressing gaps that may exist in support of existing departmental guidance like Emergency Operations plans, SOPs and/or SOG’s.

• Disaster Intelligence-

While not universally defined, Disaster Intelligence promotes the concept of sharing raw data associated with evolving events that are of such magnitude, or so dynamic, that the event is or has the potential to overwhelm a jurisdiction's ability to respond to and/or recover. This information can be critical in supporting decision making efforts at the tactical and strategic levels from local agencies through Federal intervention. _

Duties of an Information Receiver

- ◆ Serve as a consistent local point of contact for the Fire Intelligence Liaison Officer (FILO)
- ◆ Receive selected information from FILO
- ◆ Establish an internal “SOP/SOG” regarding the internal handling and security of sensitive information
- ◆ Share / Educate / Train - department members on the value and uses of intelligence for the fire service
- ◆ Provide feedback on the informational needs, what’s working / not working, suggestions for improvement
- ◆ Provide intelligence updates during significant or unusual incidents

How To Participate In The Program

STEP 1 – MABAS

- ◆ Submit a letter of interest & resume.
- ◆ Submit a letter of approval and support from applicant’s Fire Chief or District Board.
- ◆ Submit a letter of recommendation from applicant’s MABAS Division Board.

Documents should be emailed to Linda Cruz (cruz@mabas-il.org) and Darbin Calvert (Darbin.calvert@illinois.gov)

STEP 2 - State Fusion Center

- ◆ Applicant will be contacted by MABAS Intelligence Branch Chief.
- ◆ Complete and submit background check paperwork. FILO applicants must pass the limited background check.
- ◆ Complete a Non- Disclosure Agreement (NDA).
- ◆ A MABAS-IL Representative will provide final approval.
